# The Next Right Thing

FUSESPC.COM

## Mission

What is your why? Is it bigger than your excuses?

What are your barriers? If not over, then through

How can you go all-in on the next step?

## Measure

What metric proves you're continuously learning? It's likely unique to your idea

What indicator can you measure that moves toward thriving? It's not just money

What key number tells you you're still surviving? It's probably revenue and more

## Milestone

What is your 14 day quick win to build meaningful momentum? Not busywork

What is your 30 day goal? Again, more than just dollars

What is the next achievement you can share with your supporters?

What risk ahead can you mitigate or eliminate? Sooner the better

What would help you stay focused and stop worrying? Action, not anxiety
